HEALTH PROFILES FOR PENNSYLVANIA COUNTIES

Tioga

1986
State Health Data Center

Dick Thornburgh, *Governor, Commonwealth of Pennsylvania*
H. Arnold Muller, M.D., *Secretary of Health*

The Pennsylvania Department of Health has a legislative mandate to "protect the health of the people of the Commonwealth and to determine the most efficient and practical means for the prevention and suppression of disease." In order to advance toward these goals, we need statistical information on the health status of the population, the health care delivery system, and demographic and population characteristics.

The first health profiles were published in 1977 to provide a compendium of health data. These profiles have been updated and revised biennially, starting in 1978, to better meet the needs of governmental leaders, health program specialists, state and local planners, and concerned citizens.

The Health Profiles for Pennsylvania Counties are a series of 68 individual profiles - one for each county and one for the Commonwealth. The most recent information available was used. The year which the data represents is included in the profiles following each data item. Estimated population figures for 1984 are used throughout the profiles for the listed population as well as in the computation of all rates.

The major data source is the State Health Data Center, Pennsylvania Department of Health - specifically the Vital Statistics Cooperative Program, the Annual Hospital and Long Term Care Questionnaires, the Uniform Data Collection System for drug and alcohol information and the Developmental Disabilities Facility Questionnaire as funded by the Developmental Disabilities Planning Council. Additional sources include other units of the Department, (i.e. the Bureaus of Quality Assurance, Epidemiology and Disease Prevention, and Special Public Health Services), Pennsylvania State Data Center, Pennsylvania Department of Public Welfare, Pennsylvania Office of Employment Security and Pennsylvania Department of Transportation.

The profiles will continue to be updated biennially, with the next edition available in 1988. Comments and suggestions for improvement are welcome. If there are any questions or if additional information is needed, please contact the State Health Data Center, Pennsylvania Department of Health, P.O. Box 90, Harrisburg, Pennsylvania 17108, telephone number (717) 783-2548.
